

CALTRANS PUBLIC SR-85 PROJECT STARTING IN APRIL, 2012

Beginning, early April 2012, weather permitting, the California Department of Transportation (Caltrans) will grind existing concrete pavement and replace damaged concrete slabs with Rapid Strength Concrete on State Route 85, from 0.3 miles north of Stevens Creek Boulevard overcrossing in Cupertino to State Route 85 and U.S. 101 separation in Mountain View. The mainline shoulders and ramps will also be rehabilitated with hot mix asphalt.

In addition, the project will replace and upgrade damaged metal beam guard railing with a new guard rail system and modifies various traffic loop detectors.

Construction Activities:

Construction will be conducted mainly during the evening hours. Work will start around 8:00 p.m. and end before 5:00 a.m. on weekdays and 10:00 a.m. on weekends.

Most nighttime lane and ramp closures will end before 5:00 a.m. on weekdays and 10:00 a.m. on weekends. The project will be complete in July, 2012

Construction noise will be unavoidable; however, it will be kept with approved construction noise levels. Monitoring of noise levels will also be done.
